RE: Progress Report – Fourth Quarter 2017
Shelton C Street Landfill
AO No. DE 12920

Dear Andy,

This progress report has been prepared to meet the requirements of Agreed Order No. DE 12929 (AO) for the Shelton C Street Landfill in Shelton, Washington. This progress report is for work performed during October, November, and December 2017.

This progress report describes the following:

- Actions taken during the month in compliance with the AO, including deliverables submitted;
- Data results collected during the month;
- Work planned for the next month; and
- Problems or delays and resolutions.

Actions Taken

The actions taken during the fourth quarter of 2017 include the following:

1. The drilling and installation of the four initial groundwater monitoring wells, as described in the Remedial Investigation Work Plan (Work Plan), was completed between 12/11/2017 and 12/22/2017.

Data Results

The Level 4 data validation package for the Surface Characterization dioxin/furan analyses was in process at the completion of Q4. The data will be submitted to Ecology following completion of the data validation as outlined in the Work Plan.

Work Planned

The actions planned for the first quarter of 2018 include the following:

1. Development, survey, and groundwater sampling of the four initial groundwater monitoring wells is planned to occur between 1/4/2018 and 1/12/2018.

Problems, Delays and Resolutions

No problems or delays occurred during the fourth quarter of 2017. No problems or delays are anticipated for the first quarter of 2018.

Sincerely,

Craig Gregory
Public Works Director
